LOGNOTE - Chief, Operations Group, 9 May 1986

1. [ ] Following is from today's staff meeting:

25X1

25X1

- It was also announced that [ ]  
[ ] has been banned from any further contract or activities with the Agency.
- [ ] has been named NIO for NE.
- With regard to the overseas reduction exercise, D/FBIS announced that the DS&T position is not to cut any staff positions at overseas installations. In fact, there is likely to be an addition to staff field positions in the directorate.
- It was announced that the Agency will be implementing an Engineer of the Year Award program.
- There was a long discussion on the use of overtime and the various budgetary problems FBIS faces in this. The DDS&T has told office directors that he will be expecting close management of each budgetary issue by the individual offices. D/FBIS mentioned we must keep our overtime usage as close to the projected level as possible, and he emphasized that the responsibility for management overtime usage and all budget issues rest entirely with the group chief. A series of meetings on overtime usage will begin today.
